I oppose the Draft M.O.U. being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

This proposed procedure would restrict access to alternative compounds that are more effective than those that would be available without the freedom to obtain prescriptions through specialized pharmacies regardless of whether one resides in the same state as the pharmacy.

In other words, I want the right to choose where and how I get my medications without government intervention.

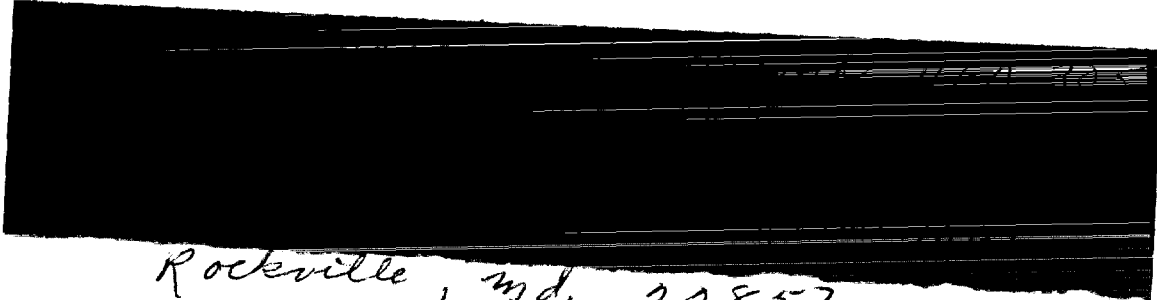

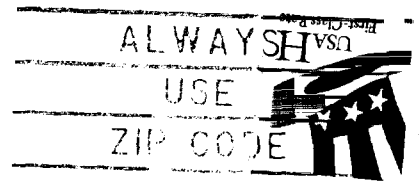

Sincerely,
